

RULES GOVERNING THE USE OF SAC
ACCREDITATION MARK

CONDITION OF USE

General Conditions on Use of Accreditation Marks and GIC logo

1. The Accreditation Mark is illustrated below and the appropriate artwork shall be reproduced accurately without any alteration subject to provisions of this clause.
2. The entire Mark may be uniformly enlarged or reduced, but shall not be less than 15mm in height. It is to be used in conjunction with the GIC logo + SAC (certification covered by SAC accreditation only) or GIC + SAC & GIC + other AB logo (certification covered by both UKAS or JAS-ANZ & SAC accreditation) and boxed together (as seen in Figure 2).
3. The accreditation marks must be reproduced in the official colours, red (Pantone 032C) or dark grey (Pantone 432C). Single colour accreditation marks, subjective to SAC's approval, can be used for limited colour or black and white production, only on light backgrounds. The font used for the certificate number is Univers 65 Bold. When this font is not readily available using software such as Microsoft Office or on platforms such as websites, Arial Bold can be used in its place. The GIC & the SAC Logo must be used as a combination and boxed together (as seen in Figure 1, 3, 4 and 5).
4. The SAC accreditation mark shall always be used in its original, designed proportions and not to be distorted, compressed or stretched in any way. The certificate number must be readable. It shall be used on a background that will not impede readability and only be used in its normal horizontal orientation and not be rotated.
5. When the Mark is used by Certified Organisations, the appropriate **Certification Number** issued by GIC under the Accreditation Scheme shall be inserted in the space provided in the Mark.
6. The Mark shall not be used by Certified organisations that implies the certification applies to activities that are outside the scope of certification as detailed in the certificate. There shall be no ambiguity in the Mark or accompanying text, as to what has been certified and GIC has granted the certification.
7. The Mark shall not be used on a product or product packaging seen by the consumer or in any other way that may be interpreted as denoting product conformity. Similarly, the Mark shall not be used on laboratory test, calibration, inspection or similar reports.
8. The Certified Organisation shall ensure that the Mark was not used by its subsidiaries or associates not related to this accredited management system for its product approval or associated documentations.
